Lead-Based Paint

Department of Commerce

Innovation is in our nature.

Activity: Lead-Based Paint Hazard Mitigation (A064)

Activity Description:

The Lead-Based Paint program provides services to ensure work performed in homes will be done in a safe and healthy manner. The program is responsible for processing certification and accreditation applications, tracking licensees, reviewing training and program effectiveness, providing technical assistance, investigating potential violators, enforcing rules, conducting outreach, maintaining website information, staffing the Lead-Based Paint Task Force, maintaining the lead-safe housing registry for low income housing, updating rules and regulations, participating in related conferences, and reporting to federal, state, and interested parties.

Activity: American Recovery and Reinvestment Act (A180)

Activity Description:

Economic Stimulus package enacted by the 111th United States Congress in February 2009. Funding is provided as a stimulus to Washington's economy in the wake of the economic downturn.

Budget (all programs within both Activities):

	FY 2010	FY 2011	Biennial Total
FTE's	4.18	4.18	4.18
Fund 001 – Fed	\$1,533,536	\$1,839,617	\$3,373,153
Fund 06K	\$ 3,000	\$ 15,000	\$ 18,000
Total:	\$1,536,536	\$1,854,617	\$3,391,153

Programs:

ARRA Lead Hazard Control Program
Lead-Based Paint Program

2009-2015 Commerce Strategic Goals & Objectives

Goal 1: Build livable, vibrant communities that meet the economic, environmental, and social needs of citizens.

Objective 1.2: Improve statewide per capita energy efficiency by 10% by 2012 toward a goal of 20% by 2020.

Strategy 1.2.5: Improve energy efficiency of publicly-funded housing projects and programs by more than 15% through implementation of the Evergreen Sustainable Development Standard beginning in 2009.

Department of Commerce

Innovation is in our nature.

ARRA Lead-Hazard Control Program

Provides funding for the control of lead-based paint hazards in low-income homes and for training in lead safe work practices and lead awareness, and for outreach educational materials

Purpose

The Lead Hazard Control Program makes housing for low-income people safer by testing for and mitigating lead-based paint hazards.

Results and Achievements

To date, the program has:

- Issued contracts with its community agencies; and
- Identified 77 units for potential lead hazard control.

This \$3 million competitive award by the Department of Housing and Urban Development runs from April 15, 2009 to April 14, 2012.

This program is Activity A180 ARRA Lead Hazard Control Program with the purpose of providing funding to remediate lead hazards in low-income housing units.

Services

The Lead Hazard Control Program provides resources to local housing agencies to help low-income households with lead-based paint hazards, including:

- Conduct outreach and consumer education;
- Assess and eliminate or control hazardous lead-based paint conditions; and
- Provide worker training.

Performance Measures

Commerce in cooperation with up to ten community agencies, will remediate lead in 162 housing units.

Fast Facts

- Lead-based paint is the number one environmental hazard to children under age six. Lead poisoning in children can lead to permanent learning disabilities
- Lead-based paint hazards are found in housing built before 1978
- Lead-based paint control services will be provided by specially-trained individuals using lead-safe work practices or approved abatement methods

Statutory Authority

Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X of the Housing and Community Development Act of 1992).

Lead-Based Paint Program

Accredit training providers, certify qualified contractors, provide public education about lead-based paint hazards

Purpose

The Lead-Based Paint Program accredits lead-based paint training programs and certifies contractors who perform specialty lead-based paint remediation work.

Results and Achievements

Since the program began operations in June 2004:

- 730 firms and individuals have been licensed; and
- 13 training providers have been accredited.

This program is Activity A064 HD Lead-Based Paint Program (EPA) with a primary statewide result area to improve the health and safety of Washington's vulnerable children and adults.

Services

The Lead-Based Paint Program provides:

- A licensed firm listing to consumers interested in obtaining lead-based paint services, such as inspection, risk assessment or remediation;
- Information on professional lead-based paint services available in Washington, as well as helpful 'how-to' tips on working safely with lead paint; and
- Timely and accurate training for abatement professionals, training providers, and the general public.

Performance Measures

- Number of certified firms and individuals certified in lead-based paint inspection and remediation

Fast Facts

- Lead-based paint is the number one environmental hazard to children under the age of six. Lead poisoning in children can lead to permanent learning disabilities.
- Most lead-based paint hazards are found in housing built before 1960.
- Only specialty contractors certified through Commerce may perform regulated lead-based activities on pre-1978 housing and child-occupied facilities.

Statutory Authority

Housing Division Performance Measurement

Lead-Based Paint Program

Measure/ Output	2003- 2005 (actual)	2005-2007 (actual)	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of firms and individuals certified in lead-based paint inspection and remediation	354	331	231	242	260

Narrative:

The EPA funded lead-based paint program performs training accreditation, contractor certification, and enforcement in an effort to ensure that contractors working around lead-based paint will use lead safe work practices to avoid inadvertently exposing people to lead hazards, especially children under seven.

Commerce has administered the program since 2004. Beginning April 2010, the U. S. Environmental Protection Agency will require certification for all contractors, maintenance workers, and specialty trades performing renovation in pre-1978 housing, schools, and day care facilities. The performance measures for the period 2009/2011 take into account only the current program, since the renovation rule administration will be the responsibility of EPA, unless the state chooses to administer.

A065

**Low Income Home Energy
Conservation, Health and
Safety**

Department of Commerce

Innovation is in our nature.

Activity:

Improve and Preserve the Affordability of Low Income Housing (A065)

Activity Description:

Programs within this activity improve and preserve affordability of low-income housing through energy conservation investments (such as insulating attics, walls and floors; air sealing the home diagnostically; modifying or replacing inefficient furnaces), health and safety actions (including indoor air quality), and other cost-effective and necessary repairs and retrofits (such as, roof repair or replacement, plumbing and electrical fixes, ramp placement etc). Program resources include federal Department of Energy (DOE), federal Low Income Housing Energy Assistance Program (LIHEAP), federal Bonneville Power Administration (BPA), federal HOME Investment Partnership, state Energy Matchmakers, and state capital Weatherization. Leveraging activities include utility companies, rental housing owners, federal, and state resources. Commerce provides technical assistance to local, public and private nonprofit agencies that deliver these services. To ensure adequate technical training of community service providers, Commerce co-hosts a regional conference, Energy Out West, as well as oversees a state training center.

Activity: American Recovery and Reinvestment Act (A180)

Activity Description:

Economic Stimulus package enacted by the 111th United States Congress in February 2009. Funding is provided as a stimulus to Washington's economy in the wake of the economic downturn.

Budget (all programs within both Activities):

	FY 2010	FY 2011	Biennial Total
FTE's	14.47	16.60	15.54
Fund 001 – Fed	\$33,019,606	\$33,558,435	\$66,578,041
Fund 150	\$ 3,355,348	\$ 4,915,502	\$ 8,270,850
Fund 057	\$ 4,500,000	\$ 4,500,000	\$ 9,000,000
Fund 532	\$ 150,000	\$ 150,000	\$ 300,000
Total:	\$41,024,954	\$43,053,937	\$84,078,891

Programs:

Energy Matchmakers Program

Weatherization Programs

Low Income Home Energy Assistance (LIHEAP)

Department of Energy

Department of Energy Regional Development and Training (AOP)

Bonneville Power Administration (BPA)

Home Repair and Rehabilitation Program (HRRP)

2009-2015 Commerce Strategic Goals & Objectives

Goal 3: Move low-income and vulnerable families to self-sufficiency.

Objective 3.2: Reduce the Gap for affordable housing by 13% by 2015 (from 218,000 to 190,000 households).

Department of Commerce

Innovation is in our nature.

Energy Matchmakers Program

Reducing utility costs for Washington's low-income residents

Purpose

The Energy Matchmakers program leverages additional funding to reduce the utility costs of low-income families through home weatherization.

Results and Achievements

- Since 1988, the Energy Matchmakers program contributed to weatherizing over 135,000 homes, using over \$106 million dollars of Matchmakers funds combined with a dollar-for-dollar match from public and private utilities, rental owners, and local governments.
- This program has helped to form lasting partnerships between local weatherizing agencies, utilities, and other match providers.

This program is a portion of Activity A065 HD Low Income Weatherization Program with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

Weatherization services provided under this program include the application of energy efficiency measures to a home including:

- Ceiling, wall, floor and duct insulation;
- Diagnostically driven air sealing (such as caulking, weather-stripping and broken window replacement) to close gaps where the home's heat can escape; and
- Heating system efficiency modifications.

All this is done according to established technical specifications and applicable building codes.

Performance Measures

- Number of units preserved through weatherization

Fast Facts

- Energy Matchmakers doubles the value of state funding for low-income weatherization.
- Weatherization conserves energy and reduces energy costs for low-income households—by 25 percent on average.
- Weatherization helps preserve existing affordable housing.

Travel	11,000	11,000	22,000
Capital Outlays	4,000	4,000	8,000
Grants, Benefits, & Client Services	3,000,000	2,000,000	5,000,000
Total Direct Expenses	3,272,295	2,272,295	5,544,590
Division Administrative Allocation	83,053	83,053	166,106
Total Expenditure:	3,355,358	2,355,358	5,710,696

Analysis/Comments:

Revenue: Fund source is primarily utility cash match to the Energy Matchmakers program, plus occasional oil overcharge funds, of which five percent is retained by Commerce for administrative costs and five percent for training and technical assistance that is applied to personal service contracts, monitoring, and inspections.

FTE: All FTEs are annualized.

Personal Service Contracts: Extensive program and technical training provided through a statewide training center by the Opportunity Council in Bellingham; also includes third-party contracts for database and website development and tribal nation outreach and service.

Goods and Services: Training, conferences, printing.

Travel: Perform monitoring and inspections; attend stakeholder meetings, conferences, and training.

Pass-Through: Direct utility cash match to targeted community-based non-profit agencies that have the technical expertise to make cost effective energy conservation improvements on low-income homes.

Note: FY 2011 has \$2,560,154 set up in unallotted status.

Department of Commerce

Innovation is in our nature.

Home Repair and Rehabilitation Program

Ensuring safe, efficient and durable housing for very low-income residents

Purpose

The Home Repair and Rehabilitation Program (HRRP) provides repair and rehabilitation to single-family, owner-occupied homes through grants and loans to very low-income households.

Results and Achievements

- From 1992 to 2009, local housing agencies have repaired and rehabilitated 2,652 homes with HRRP funding.

This program is Activity A160 HD Affordable Housing Preservation with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

HRRP helps:

- Preserve and improve existing affordable housing by eliminating health and safety hazards, ensuring durability and providing repairs necessary in order for weatherization to occur;
- Local housing agencies also use state, private, and federal weatherization dollars to provide energy efficiency measures to these homes to reduce energy use and costs;
- Address lead-based paint and asbestos hazards and accessibility issues; and
- When completed, housing units meet the HRRP Rehabilitation Standards.

Performance Measures

- Number of homes preserved through rehabilitation

Fast Facts

- Rehab costs may not exceed \$40,000 per unit plus an additional \$10,000 for lead-based paint interim controls, \$15,000 for abatement, and \$5,000 for asbestos remediation.
- Eligible organizations are community action agencies, local governments, and housing authorities currently providing weatherization services.

Statutory Authority

RCW 43.330.110
Housing – Energy assistance
HRRP is one of the programs funded through the HOME Investment Partnerships Program, authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended. HOME is administered by the U.S. Dept of Housing and Urban Development. Program regulations: 24 CFR Part 92

Housing Division Performance Measurement

Home Repair and Rehabilitation Program (HRRP)

Measure/ Output	2000 – 2002	2003 – 2005	2005 – 2007	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of units preserved through rehabilitation	303	316	375	134	243	80

Contract Cycle:

An annual contract from July 1 through June 30.

Narrative:

HRRP provides funds to help owner-occupied homes with more substantial repair and rehabilitation not permitted under the weatherization program, which will make a home more durable, healthy, and safe. The average cost per home, including weatherization, is \$28,000. The program has a cost limit of \$40,000 per unit, not counting costs associated with lead-based paint and asbestos remediation.

An estimated 150,000 families are eligible for repair services in Washington. This number varies due to economic factors and aging of housing stock.

The division is transitioning the program from federal funds to state capital funds beginning July 2009, which will make the program more administratively efficient and responsive to community needs.

Department of Commerce

Innovation is in our nature.

Analysis/Comments:

Revenue: Fund 057, which is the Housing Trust Fund capital account, and 532, which is the Housing Trust Account used for operating.

FTEs: Annualized.

Pass-Through: 19 local agency contractors will repair or rehabilitate approximately 80 homes for low-income families statewide, including remediation of Lead-Based paint and asbestos found in building materials.

Department of Commerce

Innovation is in our nature.

Weatherization Program

Reducing utility costs for low-income families and conserving energy

Purpose

The Weatherization Program reduces the utility costs of low-income families through home energy efficiency.

Results and Achievements

- Reduces the need for assistance with utility bills by reducing energy costs;
- Lowers future utility costs by conserving energy, thereby reducing the need to create new energy generation sources; and
- Preserves low-income housing.

The three federal resources of this program are part of Activity A065: HD Low Income Weatherization Program with a primary statewide result area to improve the security of Washington's vulnerable children and adults. In addition, ARRA DOE Weatherization is part of Activity 180, with the purpose of improving and preserving the affordability of low-income housing through energy conservation investments.

Services

Weatherization services provided under this program include the application of energy efficiency measures to a home including:

- Ceiling, wall, floor and duct insulation;
- Diagnostically driven air sealing (such as caulking, weather-stripping and broken window replacement) to close gaps where the home's heat can escape; and
- Heating system efficiency modifications.

All this is done according to established technical specifications and applicable building codes.

Commerce plans and conducts comprehensive training and technical assistance to ensure the program meets technical and programmatic responsibilities.

Performance Measures

- Number of homes preserved through weatherization

Fast Facts

- For every weatherization dollar spent, three dollars are added to the economy.
- Seventy jobs are sustained for each \$1 million spent on weatherization.
- Weatherization conserves energy and reduces energy costs for low-income households by 25 percent, on average.
- Weatherization helps preserve existing affordable housing.

Statutory Authority

Low-Income Home Energy Assistance Act of 1981 (Title XXVI of the Omnibus Budget Reconciliation Act of 1981, Public Law 97-35, as amended)
Energy Conservation and Production Act (Title IV, Part A, as amended, 10 USC 6851-6872)

Revenue: U. S. Department of Health and Human Services block grant, *Low Income Home Energy Assistance* Program. 85% goes to energy assistance, administered by the Community Services Division; 15% is applied to the weatherization program.

FTE: All FTEs are annualized.

Personal Service Contracts: Extensive program and technical training provided through a statewide training center organized by the Opportunity Council in Bellingham; also includes third-party contracts for database and website development and tribal nation outreach and service.

Travel: Perform monitoring and inspections; attend stakeholder meetings, conferences, and training.

Pass-Through: Contract with 26 community-based non-profit agencies that have the technical expertise to make cost effective energy conservation improvements on low-income homes.

Housing Division Performance Measurement

Weatherization

Measure/ Output	2001- 2003	2003- 2005	2005-2007 (actual)	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of units preserved through weatherization	8,285	8,377	6,826	2,988	3,243	8,293

Contract cycle:

- Department of Energy (DOE) – April 1 to March 31
- Health and Human Services (HHS) – October 1 to September 30
- Bonneville Power Administration – October 1 to September 30
- Energy Matchmakers – Biennial

Narrative:

The weatherization programs contract with 26 local agencies to conduct weatherization, client education, health, safety and weatherization related repairs. This program works together with the Home Rehabilitation and Repair Program (HRRP), since many homes receiving weatherization also need minor repairs that exceed the Weatherization Program limits, such as fixing leaks, or more major rehabilitation, such as roof replacement. At current funding levels, it will take an estimated 36 years to meet the current need for weatherization.

Average amount saved is based on an average utility bill and currently projected energy cost increases. As energy costs increase, weatherization continues to save homeowners money. In a February 2008 Weatherization Program Evaluation Report for the year 2006, Washington State University Extension Energy Program found that for every dollar spent on weatherization, families could save up to \$1.91 in energy costs.

Mobile Home Relocation Assistance

Assisting displaced residents in maintaining home ownership

Purpose

The Mobile Home Relocation Assistance Program provides financial reimbursement at set limits for actual costs of allowed expenses to qualified low-income families displaced due to mobile home park (manufactured housing community) closure.

Results and Achievements

- Homeowners maintain affordable homeownership and receive financial reimbursement for the costs of relocating from a manufactured housing community that is closing.

This program is Activity A068 HD Mobile Home Relocation Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

- Financial reimbursement to displaced families
- Assist with problem solving, including local resource referral

Performance Measures

- Number of homeowners receiving relocation assistance

Fast Facts

- Park closures have increased dramatically since 2003. 1989 – 2002: average 5.8/year
2003- 2008: average 12.3/year.
- Parks/communities provide affordable home ownership for vulnerable low-income citizens, including seniors on fixed pensions and non-English speaking homeowners.
- Since 1989, 255 mobile home parks have reported closing or partially closing.

Housing Division Performance Measurement

Mobile Home Relocation Assistance

Measure	2001-2003	2003-2005	2005-2007 (actual)	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of homeowners receiving relocation assistance	15	102	204	287	58	22

Narrative:

The number of mobile home parks closing dramatically increased beginning in 2003. The relocation fund had resources available initially to meet the increased demand for relocation. 134 households were provided assistance in the first state fiscal year of 2005-2007. Due to the demand for resources, the fund was depleted by the end of the first state fiscal year and only 70 additional households were assisted in the second state fiscal year.

FY08 the program exceeded its annual target. The high number of homeowners served the first quarter was possible due to \$2 million of state general fund allocated through the Governor's budget to augment the account.

The allotment plan was adjusted and the program accessed a small fund balance to reimburse an additional 31 homeowners in Q3. 58 homeowners were reimbursed in FY 09.

Targets are difficult to establish due to unpredictability of park closures. The lack of available space in other parks and the current 9-month waiting list may discourage applications for assistance.

Department of Commerce

Innovation is in our nature.

A153 **Farmworker Housing**

Department of Commerce

Innovation is in our nature.

Activity: Farmworker Housing (A153)

Activity Description:

Washington State's \$8.4 billion agriculture industry is a key contributor to the state's economy and one of its largest employers. In 2008, agricultural employment peaked at over 135,000. Nearly half of all agricultural employment is in tree fruit farming, an industry that is highly reliant on migrant and seasonal labor. The development of safe, affordable housing for farmworkers directly supports the agriculture industry by helping growers attract and retain a stable workforce while improving the health, safety, and quality of life of the workers on whom they rely.

Activities include capital and operating assistance to nonprofit organizations and local governments for the development of year-round and seasonal community-based housing, loans to growers for the development of on-farm seasonal housing, emergency assistance to migrant workers living in unsafe conditions, and technical assistance to growers and nonprofit housing developers wanting to develop farmworker housing.

Resources include capital financing from the Housing Trust Fund and operating and technical assistance from the Housing Trust Account. Stakeholder involvement is accomplished through the Affordable Housing Advisory Board and the Washington State Farmworker Housing Trust, a nonprofit organization that includes statewide representation from growers, housing developers, advocates, and local communities.

Budget (operating funds only, capital funds are included under Activity 159):

	FY 2010	FY 2011	TOTAL
FTE's	0	0	0
Fund 532	\$420,000	\$425,000	\$845,000

Programs:

Housing Trust Fund

Farmworker Housing Program

On-Farm Housing Loan Program

2009-2015 Commerce Strategic Goals & Objectives

Goal 3: Move low-income and vulnerable families to self-sufficiency.

Objective 3.1: Reduce the Gap for affordable housing by 13% by 2015 (from 218,000 to 190,000 households).

Department of Commerce

Innovation is in our nature.

Farmworker Housing Program

Supporting Washington's agricultural economy through safe housing options for workers

Purpose

The Farmworker Housing set-aside within the Housing Trust Fund provides loans and grants for the development of community-based housing for migrant and seasonal farmworkers.

Results and Achievements

Since 1999, Commerce has committed \$93.3 million in state and federal resources to farmworker housing. Investments in multi-family housing, homeownership assistance, seasonal camps, and on-farm housing have resulted in:

- 1,272 units of year-round housing;
- 8,417 seasonal beds; and
- 12,059 bed nights of emergency shelter for homeless migrant workers.

This program is Activity A153 Farmworker Housing with a primary statewide result area to improve the economic vitality of businesses and individuals.

Services

The Farmworker Housing Program provides loans and grants to local governments and nonprofit organizations for:

- Capital investments in permanent (year-round) housing;
- Capital and operating investments in seasonally-occupied housing; and
- Emergency assistance for homeless migrant workers.

The program also provides technical assistance to growers, local governments, and nonprofit organizations on the development of seasonal housing for migrant workers.

Performance Measures

- Number of farmworker units created (includes units and beds)
- Number of farmworker seasonal beds preserved
- Number of farmworker seasonal beds supported by operating investments

Fast Facts

- Washington's \$42 billion food and agriculture industry employs 160,000 people and contributes 13% percent to the state's economy. (WSDA, 2009)
- The average income for a farmworker family is \$17,596/year. This is only 35 percent of the state median income. (Washington State Farmworker Housing Trust)

Statutory Authority

RCW 43.185 and 43.185(A)

The Farmworker Housing set-aside was established through a legislative proviso to the Housing Assistance, Weatherization, and Affordable Housing, Housing Trust Fund portion of the capital budget in 1999.

On-Farm Housing Loan Program

Supporting Washington's agricultural economy through safe housing options for workers

Purpose

The On-Farm Housing Loan Program provides loans to growers for the development or preservation of housing that is located on farm property and will be seasonally occupied by migrant farmworkers.

Results and Achievements

The state-funded On-Farm Housing Loan Program was implemented in October 2005. Initially, financing was limited to on-farm infrastructure improvements necessary for the development or preservation of seasonal housing facilities. In 2008, the program was expanded to also include construction financing. To date, the program has provided 66 loans totaling \$8 million, resulting in the creation or preservation of 3,106 on-farm seasonal beds, and leveraging \$10.7 million in private investments.

This program is Activity A153 Farmworker Housing with a primary statewide result area to improve the economic vitality of businesses and individuals.

Services

Under the On-Farm Housing Loan Program:

- Low and no interest loans are provided to growers for the development or preservation of on-farm housing that will be seasonally-occupied by migrant farmworkers;
- Growers are required to provide at least a dollar for dollar match toward the total project cost;
- Housing must be owned and operated by the borrowing grower, with the grower being responsible for ongoing operational costs;
- Housing must comply with all applicable state and local standards and remain licensed as temporary worker housing for a minimum of 15 years;
- Housing must be operated on a not-for-profit basis; and
- Technical assistance is provided to assist growers with state and local regulatory requirements throughout project development.

Performance Measures

- Number of farmworker units created (includes beds and units)
- Number of farmworker seasonal beds preserved

Fast Facts

- A 2004 report by the Washington State Farmworker Housing Trust estimated a need for 39,401 new units of farmworker housing in Washington State
- The most critical need for seasonal housing is in July, during the peak of cherry harvest.

Statutory Authority

RCW 43.185 and 43.185(A)

Housing Division Performance Measurement

Farmworker Housing Program

Measure/ Output	2001-2003	2003-2005 (to date)	2005-2007 (actual)
Number of units of permanent housing created	207	209	294
Number of seasonal beds created or preserved	2,343	929	1,049
Number of bed nights of emergency shelter provided.	2,514	2,629	1,747

Measure/ Output	2001- 2003	2003- 2005	2005- 2007 (actual)	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of farmworker units created (includes units and beds)	2,550	1,137	1,199	805	904	914
Number of farmworker seasonal beds preserved	incl in Units Created	incl in Units Created	144	120	58	104
Number of farmworker seasonal beds supported	1,310	1,979	2,470	4,975	5,608	5,258

Contracting Cycle:

Varies, as applications for seasonal projects are accepted on an open-door basis. Budgets/reports are generally on calendar year.

Narrative:

Funding provided to date in support of farmworker housing has included state and federal resources, as follows:

Biennium	State (Housing Trust Fund)	Federal (HUD)
99-01	\$11.2 million	\$.5 million
01-03	\$12.2 million	\$1.1 million
03-05	\$10.9 million	\$.7 million
05-07	\$16.4 million	\$.0 million
07-09	\$22.8 million	\$.0 million
Total	\$73.5 million	\$2.3 million

Department of Commerce

Innovation is in our nature.

These measures includes both permanent (year-round) and seasonal housing. Seasonal housing includes both on-farm and off-farm projects. Each of these is funded through a separate process using different guidelines.

- Capital financing is made available for permanent projects through the Housing Trust Fund (HTF) biannual competitive process. Data is reported as “units.”
- Capital financing for off-farm, or community-based, seasonal projects is also available through the HTF, but applications are accepted on an open-door basis. Data is reported as “beds.”
- On-farm seasonal projects are funded through a separate loan program for agricultural employers. Loan applications are accepted on an open-door basis. Data is reported as “beds.”
- Seasonal projects may also be supported through operating assistance. In the 09-11 Biennium, this includes funding for three migrant camps and the Rent-a-Tent program.

Department of Commerce

Innovation is in our nature.

A157

Homeless Housing Assistance

Department of Commerce

Innovation is in our nature.

Activity: Homeless Housing and Assistance (A157)

Activity Description:

This activity offers a range of housing services from emergency shelter, longer-term transitional housing (up to two years), and finally to permanent affordable housing all aimed at helping individuals, families, and special needs populations move successfully from homelessness to more stable, affordable housing. Rent assistance and supportive services such as case management, employment counseling, job training, drug or alcohol treatment, and mental health counseling are also provided. Because these services are often administered by different sources and systems of care at the local level, coordination among state, federal and local governments is very important. It is achieved through the work of the State Advisory Council on Homelessness, the Interagency Council on Homelessness, and the Affordable Housing Advisory Board. Program resources include the state's Emergency Shelter Assistance Program, Overnight Youth Shelter, Homeless Families with Children, Transitional Housing Operating and Rent Assistance programs, Homeless Grant Assistance Program, Washington Families Fund, and Independent Youth Housing program. Federal resources include the Emergency Shelter Grant and Supportive Housing programs. Commerce provides grants to local communities statewide through formula allocation and competitive application processes. Operating assistance to housing projects is available from the state Housing Assistance Program for the Mentally Ill and federal Housing Opportunities for Persons with AIDS.

Budget (all programs within Activity):

2009-2015 Commerce Strategic Goals & Objectives

Goal 3: Move low-income and vulnerable families to self-sufficiency.

Objective 3.3: Reduce Homelessness by 50% by 2015

- Strategy 3.3.1: Create a best practices list of housing and services that would ensure people are not homeless at release from institutions or foster care by July 2009.
- Strategy 3.3.2: Implement coordinated best practices housing and services approaches among the Departments of Social and Health Services, Corrections, Veterans Affairs, Health, and Employment Security to meet the multiple needs of people who are homeless by 2011.
- Strategy 3.3.3: Expand the supply of supportive housing for low-income persons with long-term disabilities by 2,000 beds by 2015.
- Strategy 3.3.4: Collect data on homelessness from every county in the Homeless Management Information System by December 2009.
- Strategy 3.3.5: Increase the units of transitional housing by 2,200 for homeless persons and those at risk of homelessness by 2015.

ARRA Homelessness Prevention & Rapid Re-Housing Program

Support individuals experiencing homelessness or who are at risk of homelessness

Purpose

Provide financial assistance and services to prevent individuals and families from becoming homeless or help those who are homeless to be quickly re-housed and stabilized.

Results and Achievements

During state fiscal year 2010, organizations receiving funds are projected to:

- Serve over 4,000 individuals.

This program is a portion of Activity A180 Homeless Prevention and Rapid Re-Housing Program with the goal of providing financial assistance and services to prevent individuals and families from becoming homeless to be quickly re-housed and stabilized.

Services

The funds under this program are intended to target individuals and families who would be homeless but for this assistance. The funds will provide for a variety of assistance, including: short-term or medium-term rental assistance and housing relocation and stabilization services, including such activities as mediation, credit counseling, security or utility deposits, utility payments, moving cost assistance, and case management.

Performance Measures

- Number of Households provided with financial assistance. The target is to serve 3,300 households in FY 2010 and 4,400 households in FY 2011.

Fast Facts

- The HPRP federal grant is for 3 years and ends June 2012
- Households served must be under 50% Area Medium Income
- Department of Commerce is administering \$11,126,387 to rural counties

Statutory Authority

Homelessness Prevention and Rapid Re-Housing Program (HPRP) is funded under the Homeless Prevention Fund created under Title XII of Division A of the American Recovery and Reinvestment Act (Recovery Act) of 2009.

Emergency Shelter Programs

Providing people who are homeless temporary housing in a safe and secure environment

Purpose

The Emergency Shelter Assistance Program (ESAP) and Homeless Family Shelter Program (HFS) support a network of community-based emergency shelters and programs statewide to prevent homelessness or for those already homeless to quickly re-house them in safe, secure and affordable housing.

Results and Achievements

During state fiscal year 2009, organizations receiving funds:

- Sheltered 48,817 individuals in 37,472 households
- Provided 1,562,217 bednights of shelter
- Provided 38,480 individuals in 14,968 households with prevention services

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

- Shelter operations and case management for residents.
- Operations include utilities, maintenance and supplies.
- Prevention assistance and case management for individuals and families at risk.
- Assistance includes rent or mortgage subsidies, security deposits, screening fees, landlord mediation, and utility payments.

Performance Measures

- Number of nights of shelter provided
- Number of individuals provided shelter
- Percentage of households exiting to permanent housing

Fast Facts

- More than 87,000 individuals are sheltered or receive services that prevent homelessness annually.
- Over 9,000 families with children received homeless prevention assistance and over 23,000 families were turned away because of lack of funding.
- Overall with local matching dollars the Emergency Shelter Programs serves 65% of the need.

Statutory Authority

Emergency Shelter Programs (ESAP) is funded under RCW 43.63A.645.

Emergency Shelter Grants Program

Supporting Washington's homeless shelters and support services

Purpose

The Emergency Shelter Grant (ESG) Program provides funding to counties to support the operating costs of emergency shelters. ESG also provides support services for people who are homeless, resulting in greater individual self sufficiency.

Results and Achievements

During state fiscal year 2009, organizations receiving ESG funds:

- Served 29,498 individuals and families with emergency shelter and services; and
- Provided more than 950,000 bed nights of shelter.

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

ESG funds can be used for:

- Shelter operations and case management for residents (operations include utilities, maintenance and supplies); and
- Prevention assistance and case management for individuals and families at risk (assistance includes rent or mortgage subsidies, security deposits, screening fees, landlord mediation, and utility payments).

Performance Measures

- Number of bed nights provided to homeless families and individuals by organizations receiving funding
- Number of individuals provided shelter

Fast Facts

- The program provides shelter and case management to over 5,000 families annually.
- State funds are primarily targeted to Washington's rural and medium sized communities.

Statutory Authority

Emergency Shelter Grants Program (ESGP) is funded under the McKinney-Vento Homeless Assistance Act, 42 USC 11371-11378.

Homeless Grant Assistance Program

Piloting system integration and performance measurement to reduce homelessness

Purpose

The Homeless Grant Assistance Program (HGAP) uses the state portion of the Homelessness Housing and Assistance Act (RCW 43.185C) document recording fees to fund pilot county initiatives to reduce homelessness by:

- Integrating homeless housing and services with other systems (corrections, mental health, employment, education, substance abuse health care, and social services);
- Increasing earned income so people become self-sufficient; and
- Demonstrating cost savings (i.e., reduced use of emergency medical care).

Results and Achievements

- The program has so far awarded \$30 million to twenty counties in the form of three year grants.
- With local partners funded the creation of the equivalent of 2,600 additional beds connected to services for people facing homelessness.
- Served over 6,715 individuals through September 2009

This program is a portion of Activity A157HD: Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

The services provided by pilot HGAP initiatives vary between counties because of the wide array of homeless reduction approaches being tested. Services provided include:

- Permanent supportive housing and services for people with severe and persistent mental health illnesses;
- Short-term rent assistance and services for people coming out of jail who would otherwise exit into homelessness;
- Housing tied to intensive services for families with children to help them obtain self-sufficient incomes; and
- Centralized assessment and rapid re-housing via short-term rent subsidies for private market rental housing.

Fast Fact

- Most of the document recording fee generated by the Homelessness Housing and Assistance Act goes directly to county governments.

Performance Measures

- The authorizing legislation emphasizes performance measurement and planning of homeless efforts.
- The state Ten-Year Homeless Plan defines 22 performance measures that are being used to track progress toward the goal of reducing homelessness.
- The primary measure is the percentage reduction in the number of homeless persons as documented during the annual count.
- The other primary measures are the percentage of people returning to homelessness after exiting HGAP funded programs, and percentage of participants obtaining living wage jobs.

Housing Division Performance Measurement

Homeless Grant Assistance Program

Measure	2008	2009	2010 (target)
Number of people who are unsheltered at a point in time	6,498	6,545	6,000
Percentage of people in poverty who are unsheltered at a point in time	0.899%	0.906%	0.830%

Contracting cycle:

Historically requests for proposals are announced in the August, and one to three-year awards made in December. New funding rounds not expected until 2013 due to significant declines in mortgage transaction fees revenue.

Narrative:

The foundation of the Homeless Housing Program is data collection, performance measurement, and planning. Beyond measuring performance via a reduction in homelessness, Commerce has developed an initial collection of performance measurements at both the state and local levels as part of the State Homeless Plan.

Department of Commerce

Innovation is in our nature.

Housing Assistance for Persons with Mental Illness

Supporting permanent housing for mentally ill people in Pierce County

Purpose

The Housing Assistance for Persons with Mental Illness (HAPMI) program provides operating assistance to projects that provide housing for mentally ill persons in Pierce County to ensure that housing is safe and affordable and services are easily accessible.

The fund also pays for security or utility deposits so that mentally ill persons are able to move to semi-independent or independent living, greatly improving their quality of life.

Results and Achievements

During state fiscal year 2009, organizations receiving funds:

- Filled the operating and maintenance gaps of 26 units in the county ensuring the on-going availability of affordable housing for people recovering from mental illness; and
- Assisted 200 most in need, low-income persons.

This program is a portion of Activity A157 HD: Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

HAPMI funds provide:

- Security, damage and utility deposits for clients needing housing; and
- Operating support, including the cost of property management, maintenance, janitorial, security, repairs, heat, electricity, water and sewer, garbage, furnishings, and insurance for projects that house mentally ill persons.

Performance Measures

- Number of households assisted through rental vouchers
- Number of units provided operating support

Fast Facts

- Persons with Section 8 vouchers are not able to easily access housing if they don't have the resources to pay for damage, security or utility deposits. HAPMI helps to fill this gap.
- The program provides funding to four organizations in Pierce County.

FTE: All FTEs are annualized.

Pass-Through: Funds are passed through to 4 contractors and used to support a rent deposit program and the operating costs of housing for persons with mental illness in Pierce County.

Revenue: Funding for this program is derived from a portion of the Pierce County Metropolitan Park District's sales and use tax.

Department of Commerce

Innovation is in our nature.

Contract Cycle:

An annual contract for July 1 through June 30.

Narrative:

The goal of this program is to fill operation and maintenance resource gaps in Housing Trust Fund-supported units in Pierce County that serve persons with mental illness or to provide deposit assistance to mentally ill persons in Pierce County who are not able to provide for deposits. HAPMI funding continues at the same level as previous years. No significant changes are expected.

The number of households assisted includes households receiving deposit assistance and households residing in the operating support assisted units.

Department of Commerce

Housing Opportunities for People with AIDS

Providing housing assistance to persons with HIV/AIDS and their families

Purpose

The Housing Opportunities for Persons with AIDS (HOPWA) program provides housing assistance and support services to low-income people with HIV/AIDS and related diseases, and their families (except in King and Snohomish counties who have their own programs). This support helps prevent homelessness, stabilizes current housing situations, and assists people in accessing healthcare and other support.

Results and Achievements

During state fiscal year 2009, organizations receiving funds:

- Provided housing assistance to 331 eligible individuals and households; and
- Assisted 162 persons to have contact with a primary healthcare provider.

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

HOPWA funds can be used for:

- Housing, rental assistance, supportive services and program planning and development costs;
- Acquiring, rehabilitating or constructing community residences and Single Room Occupancy units;
- Operating and maintaining facilities and community residences; and
- Short-term payments to prevent homelessness.

Performance Measures

- Number of households assisted through rental vouchers
- Number of units provided operating support

Fast Facts

- Once housing is secure, clients are able to follow through on their healthcare treatment plans
- Assists 60 households with rent assistance annually

Statutory Authority

HOPWA is a federally funded program from the U.S. Department of Housing and Urban Development (HUD) authorized under the provisions of the AIDS Housing Opportunity Act, 42 USC Sec 12901 et.seq.

Independent Youth Housing Program

Moving foster youth to permanent housing and sustainability

Purpose

The Independent Youth Housing Program (IYHP) provides rental assistance and case management to eligible youth who have aged out of the state dependency system. The program assists in meeting the state goal of ensuring that these youth avoid homelessness by having access to decent, appropriate, and affordable housing.

Results and Achievements

During state fiscal year 2009:

- 63 youth were provided with housing assistance;
- Seventy-one percent of 31 youth exiting the program, exited to permanent housing;
- Thirty-three percent of participating youths experienced an increase in income as a result of gaining employment or wage progression; and
- Forty-three percent of participating youth were enrolled in post secondary institutions.

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's youth exiting the state foster care system.

Services

Eligible youth ages 18 to 23 served by IYHP can receive:

- Rent assistance;
- Security and/or utility deposits; and
- Case management services.

Youth exiting from the state dependency program are particularly vulnerable to homelessness. IYHP provides the stability of assured, decent housing while making services available that help young people gain skills for economic independence and self-sufficiency so that they are better able to overcome the challenges of living on their own.

Performance Measures

- Number of individuals provided shelter
- Increases in housing stability, economic self-sufficiency, independent living skills, and education and job-training attainment
- Decreases in the use of all state-funded services over time
- Decreases in the percentage of youth aging out of the state dependency system each year who are eligible for state assistance

Fast Facts

- Five local grantees serve eligible youth in Benton, Franklin, King, Klickitat, Lewis, Pierce, Spokane, Thurston, and Yakima Counties.

Analysis/Comments:

Goods and Services: Includes support for contractor workshops and trainings.

Pass-Through: Funds are passed through to five contractors to provide housing and case management services for youth ages 18 through 22 who have exited the foster care system. Services are offered in nine counties.

FTE: All FTEs are annualized.

Department of Commerce

Innovation is in our nature.

Contracting Cycle:

A biennial contract for July 1 through June 30

Narrative:

The program provides housing vouchers and case management to youth, ages 18 to 23, who have exited the state dependency system. There are approximately 400 youths who age out of foster care at age 18 each year in the state. These young people are particularly vulnerable to poverty and homelessness because merely reaching the chronological age of independence does not mean they are fully prepared to succeed in life. The IYHP meets this need through access to decent, appropriate, and affordable housing in a healthy, safe environment while helping young people gain skills for economic independence and self-sufficiency so that they are better able to overcome the challenges of living on their own.

The legislation established a number of performance measures for the IYHP. Commerce staff created an interim Client Data Form to collect client-level data at various intervals of program participation that will help to measure performance. This information is currently submitted via email and entered by Commerce staff into a database. All programs will be using a web-based Homeless Management Information System (HMIS) as the primary data collection tool by the end of December 2009.

The initial target for youth exiting the program to permanent housing was 75 percent. In FY 2009, 31 youths exited the program. Twenty-two or 71 percent of these youth exited to permanent housing. This fiscal year represents the first full year of operation for the IYHP.

Licensed Overnight Youth Shelter Program

Supporting safe and secure temporary housing for homeless youth

Purpose

Overnight Youth Shelter (OYS) funds are distributed to overnight youth shelters in Clallam, Grays Harbor, King, Skagit, Snohomish, and Spokane counties each receiving \$20,000. The funds are used to meet the minimum licensing requirements for overnight youth shelters and to leverage other local and private funds more effectively so that safe and secure temporary housing, as well as services, are provided to youth ages 13 through 17.

Results and Achievements

During state fiscal year 2008, organizations receiving funds:

- Served 432 homeless youth; and
- Provided 5,495 bednights of shelter.

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

The funds may be used for:

- Additional staff necessary to meet licensing requirements;
- Facility maintenance, if necessary, to meet facility standards; and
- Food, beds or supplies needed to maintain an overnight youth shelter license with DSHS.

Performance Measures

- Number of homeless youth provided shelter
- Number of nights of shelter provided to homeless youth

Fast Facts

- Bednights of shelter increased by 480 from 2007 to 2008
- 69% of youth served were homeless for 0-14 days before receiving shelter.

Statutory Authority
RCW 43.63A.645
Emergency Housing programs

Due to the cost of meeting the licensing requirements established by the Department of Social and Health Services (DSHS), the Legislature intended to provide a nominal amount of state financial support in order to assist the shelters in meeting state-established standards and to leverage other local and private funds more effectively.

Tenant Based Rental Assistance Program

Providing rental assistance to the most vulnerable and low-income families

Purpose

The Tenant Based Rental Assistance (TBRA) program provides rental assistance funding to non-profits, local governments, and housing authorities so that people who are homeless or have very low incomes are able to live in a neighborhood of their choosing, at a price they can afford.

Results and Achievements

During state fiscal year 2009:

- 972 households with 2,331 individuals were provided with housing assistance;
- 88 percent of those assisted (860) were homeless households representing some of the most vulnerable populations in need of affordable housing; and
- 289 households were able to procure permanent housing with the assistance of TBRA.

Rent subsidies ensure that a family does not spend more than 30 percent of their income for housing, making them less vulnerable to homelessness. The federal Section 8 voucher program provides similar rental subsidies to low-income households; however, demand often exceeds the supply of vouchers. Many low-income people on long waiting lists for Section 8 are assisted first by the TBRA program.

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

People served by TBRA can receive:

- Rent assistance;
- Security deposits; and
- Utility deposits.

Performance Measures

- Number of individuals provided shelter

Fast Facts

- Currently administered in 24 counties in the state.
- 220 households received deposit assistance enabling them to procure permanent housing.

Statutory Authority

TBRA is one of the programs funded through the HOME Investment Partnerships Program authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended. Funds are provided to the State by the U.S. Department of Housing and Urban Development (HUD). Program regulations: 24 CFR Part 92.

Analysis/Comments:

Pass-Through: Funds are passed through to 16 contractors and used to support rental housing assistance for extremely low-income households in rural and medium sized counties in the state.

Revenue: The U.S. Department of Housing and Urban Development (HUD) allocates HOME Investment Partnership (HOME) Program funds by formula to eligible state and local governments to provide more affordable housing through property acquisition, rehabilitation, new construction, and tenant based rental assistance. This is a portion of the HOME Investment Partnership grant. The Department of Commerce (COMMERCE) distributes TBRA program funds to eligible organizations that assist households in areas throughout the state not served by local HOME Participating Jurisdictions.

Transitional Housing, Operating and Rent Program

Moving households from homelessness to permanent housing

Purpose

The Transitional Housing, Operating and Rent (THOR) program provides funding to non-profits, local government, and housing authorities so that homeless individuals and families can quickly access safe, decent, and affordable housing with the resources and supports necessary for self-sufficiency and well-being.

Results and Achievements

During state fiscal year 2009:

- 1568 homeless households were provided with housing assistance. Of the total, 346 households were individuals and families without children. New legislation allowed services to be provided to these populations for the first time since the inception of the program in 1999; and
- Fifty-seven percent of the 988 households exiting the program, exited to permanent housing.

This program is a portion of Activity A157 HD Homeless Housing and Assistance with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

People served by THOR can receive:

- Rent assistance for up to 24 months;
- Security and/or utility deposits; and
- Case management services.

Individuals and families who find themselves homeless often need case management services to successfully transition to permanent housing. THOR ensures that these services are linked with their housing assistance. For families with children, the program also supports up to 50 percent of the ongoing operating expenses of transitional housing facilities.

Performance Measures

- Percent of households exiting to permanent housing

Fast Facts

- THOR, in conjunction with local programs, serves 81% of the need for transitional housing and services.
- Eighty-four percent of exiting households participated in the program 12 months or less.
- 300 households moved to their own apartment or house without further rental subsidy support.

Housing Division Performance Measurement

Transitional Housing, Operating, and Rent Program (THOR)

Measure	2001-2003	2003-2005	2005-2007	FY 2008	FY 2009 (actual)	FY 2010 (target)
Percent of families exiting to permanent housing	82 %	71 %	75 %	78 %	68%	40%

A biennial grant for July 1 through June 30.

Narrative: 2009

The THOR program is established in RCW 43.185C.210. Through rent assistance and case management, the program assists individuals and families who are homeless or who are at risk of becoming homeless to secure and retain safe, decent, and affordable housing. The program also provides operating subsidies for transitional housing facilities that house homeless families with children.

Program eligibility provides access to all persons who meet the homeless eligibility requirements. It draws special attention to families receiving services under RCW 13.34 (children and families involved in Juvenile Court Action), individuals or families with an adult member has a mental health or chemical dependency disorder, and individuals or families with an adult member who is an offender released from confinement within the past eighteen months.

Local providers report aggregated data semi-annually. This information is currently submitted via email and entered by Commerce staff into a database. All programs will be using a web-based Homeless Management Information System (HMIS) for data collection by the end of December 2009.

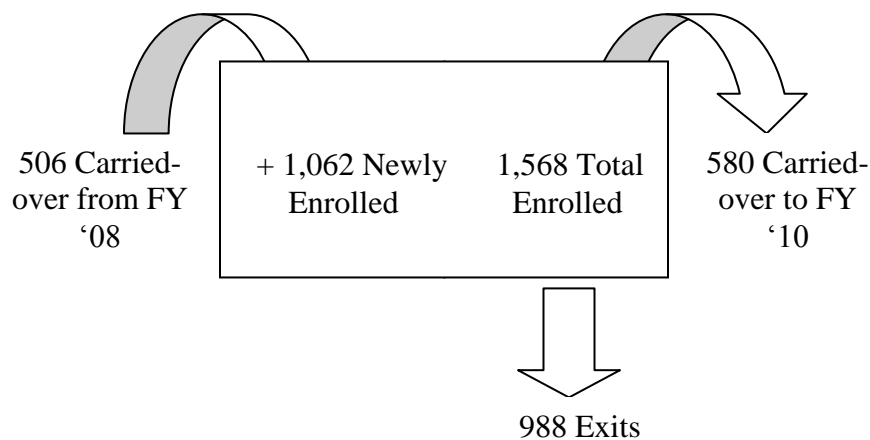

Department of Commerce

Innovation is in our nature.

Participation in THOR is limited to two years. Most households are enrolled in the program for 12 months or less. The following statistics for FY 2009 give an idea of the flow of households entering and exiting the THOR program:

- 506 - number of households carried over from the previous year and who are continuing program participation;
- 1,062 - number of households newly enrolled; and
- 988 - number of households who exited the program.

Below is a visual depiction of this information:

Numbers reflecting exits to permanent housing have fluctuated over the past 2 to 3 years as we have modified our reporting forms to mirror language in the Homeless Management Information System. The percentage of exits to permanent housing in FY 2009 is notably lower than in previous years. Of the 988 households exiting the program, only 57% or 565 households exited to permanent housing. Due to budget considerations, programming for expanded populations could only be continued in non-THOR transitional programs hence the large number of exits to transitional housing rather than permanent housing. If you exclude exits to transitional housing, the percentage of exits to permanent housing is 85 percent.

Households exiting the program in FY 2009 (988) moved to:

- Permanent housing (565);
- Unknown/other destination (49);
- Family/friends on temporary basis (31);
- Emergency or other transitional housing (330);
- Treatment program (9);
- Hotel/motel (1);
- Foster care (1); and
- Jail/prison/juvenile detention (2).

Washington Families Fund

A public private partnership to overcome homelessness by ensuring services with housing

Purpose

The Washington Families Fund (WFF) provides a reliable, long-term source of funding for supportive services combined with stable housing to families experiencing homelessness resulting in their achieving greater self sufficiency.

Results and Achievements

During state fiscal year 2009:

- 8 additional projects were awarded grant support, bringing the total to 36 innovative housing partnerships statewide;
- To date, 626 families were served, these families represent 1,946 individuals, of which, 1,210 were children;
- Within 10 years, more than 2,500 families, or 71% of households exiting the program are expected to move into permanent, affordable housing.

This program is Activity A157 HD Homeless Housing and Assistance Fund with a primary statewide result area to improve the security of Washington's vulnerable children and adults.

Services

The WFF program provides for:

- Comprehensive and individualized case management services to homeless families participating in supportive housing programs;
- Services such as literacy, job training, assistance in recovery from domestic violence and other trauma;
- Referrals to mental health and substance abuse treatment;
- Training in living skills and parenting; and
- Education, childcare and transportation assistance.

Performance Measures

- Number of families with housing-based services annually
- Percent of those exiting the program transitioning to permanent housing

Fast Facts

- Services combined with affordable housing helps families avoid further episodes of homelessness and gain greater independence.
- The WFF has leveraged over \$12 million of private and philanthropic funds.

A159 Affordable Housing Development

Department of Commerce

Innovation is in our nature.

Activity: Affordable Housing Development (A159)

Activity Description:

The availability of affordable housing options is essential to the health and well-being of people and communities. Many low-income Washington households pay a disproportionate share of their incomes for housing. Efforts to create sustainable, affordable housing for low-income households include construction, acquisition, and rehabilitation of multi-family and single-family housing projects; housing needs studies; housing project compliance verification; housing project asset management, and technical assistance to housing developers and housing managers. Resources include federal HOME Investment Partnership, operating Housing Trust Account, and capital Housing Trust Fund. Stakeholder involvement with planning is accomplished through the Affordable Housing Advisory Board (AHAB) and the Policy Advisory Team (PAT).

Budget (all programs within Activity):

HOME General Purpose Program

2009-2015 COMMERCE Strategic Goals & Objectives

Goal 3: Move low-income and vulnerable families to self-sufficiency.

Objectives 3.2: Reduce the gap for affordable housing by 13% by 2015
(from 218,000 to 190,000 households).

Strategy 3.2.1: Create 23,000 new units of affordable housing with state resources by 2015.

Strategy 3.2.2: Create 3,000 new units of affordable housing through private development, and federal and local government resources by 2015.

Department of Commerce

Innovation is in our nature.

- Strategy 3.2.3: Establish and implement common “best practice” business processes for investment portfolio risk management by 2012 (*Same as Strategy 5.2.5 co lead with Local Government and Public Works*).
- Strategy 3.2.5: Increase 10% of low-income households’ earning potential to self-sufficiency by 2015 - *a joint strategy with Community Services Division, International Trade and Economic Development, and the Interagency Council on Homelessness*.
- Strategy 3.2.6: Develop a plan to increase affordable workforce housing by July 2009 and implement the plan by July 2010 (*a joint strategy with LGD and ITED*).

Department of Commerce

Innovation is in our nature.

HOME General Purpose Program

Creating and preserving safe, decent and affordable housing

Purpose

The federal HOME General Purpose Program supports the construction, acquisition or rehabilitation of affordable housing units and creates rental opportunities statewide for very low-income people.

Results and Achievements

- These funds have preserved or increased the stock of affordable housing in Washington from 1992 to July 2009 by 3,361 units with more than \$82 million.
- This investment has leveraged more than \$300 million in private and public sector support.

This program is a portion of Activity A159 Affordable Housing Development with a primary statewide result area to improve the economic vitality of businesses and individuals.

Services

Key program elements include:

- Creating and preserving affordable rental housing projects categorized as permanent, transitional and/or supportive housing projects serving people who are homeless or have special needs and have incomes at or below 50% of the local average median income (AMI);
- Preserving or creating manufactured housing communities that provide rental and/or homeownership opportunities for households at or below 50% of the local AMI;
- Serving households that include families, at-risk youth and children, senior citizens, farm workers, and people with chronic mental illness;
- Helping communities by preserving valuable investments in housing stock through rehabilitation of existing structures;
- Preventing dislocation of low-income households by preserving properties losing their federal subsidies; and
- Enhancing programs and services of the Department of Social and Health Services and the Department of Health by creating housing for populations that receive their services.

Performance Measures

- Number of units created
- Number of units preserved

Fast Facts

- The HOME portfolio includes more than 138 low-income rental housing properties statewide.
- HOME Program resources are used for tenant-based rental assistance acquisition, new construction and rehabilitation of affordable housing units, manufactured housing community preservation and development.

Statutory Authority

The HOME General Purpose Program is funded through the HOME Investment Partnerships Program authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended. HOME is administered by the U.S. Department of Housing and Urban Development (HUD). Program regulations are at 24 CFR Part 92

Housing Trust Fund-Resource Allocation and Contracting

Creating and preserving safe, decent and affordable housing

Purpose

The Housing Trust Fund (HTF) supports community efforts to ensure the availability of safe, decent and affordable housing by providing loans and grants for construction, acquisition and rehabilitation of low-income multi-family and single-family housing.

Results and Achievements

Since 1989, the Housing Trust Fund has:

- Invested more than \$600 million in new and improved housing;
- Leveraged more than \$3 billion in private and public sector support; and
- Improved or increased the stock of affordable housing in Washington by more than 35,000 units.

This program is a portion of Activity A159 HD Affordable Housing Development with a primary statewide result area to improve the economic vitality of businesses and individuals.

Services

Key program elements include:

- Creating rental and homeownership opportunities in every region of the state for people with incomes of 80 percent of median income and below;
- Serving households that include families, at-risk youth and children, senior citizens, farm workers, and people with chronic mental illness;
- Enhancing programs and services of the Department of Social and Health Services, Department of Corrections and Department of Health by creating housing for populations that receive their services;
- Assisting low-income homebuyers with down payments to purchase their first homes;
- Helping communities by preserving valuable investments in housing stock through rehabilitation of existing structures; and
- Preventing dislocation of low-income households by preserving properties losing their federal subsidies.

Fast Facts

- Current demand for the Housing Trust Fund dollars is approximately three times available funds
- The HTF portfolio includes more than 1,250 low-income housing properties statewide
- The Housing Trust Fund has invested in projects in 38 of 39 Washington counties

Housing Division Performance Measurement

Housing Trust Fund Resource Allocation and Contracting

Measure	2003	2004	2005	2006	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of units preserved	n/a	n/a	n/a	n/a	601	589	542
Number of units created	n/a	n/a	n/a	n/a	1,396	842	824
Number of low-income families provided homeownership	n/a	n/a	n/a	n/a	82	68	100

The Housing Trust Fund has historically held semi-annual funding rounds for multi-family projects, in the fall and spring of each year. Homeownership funds are awarded annually. In response to the current economic situation and reduced appropriations for the 2009-2011 Biennium, the Housing Trust Fund anticipates awarding all available funds in 2009 and not holding rounds in 2010 unless additional funds become available.

Projects take an average of two years to be completed.

Narrative:

In the 2007-2009 Biennium, a Housing Trust Fund dollar leveraged 6 dollars of private and public funds.

Due to current market conditions and limited access to capital, requests per project have grown substantially. Housing Trust Fund awards averaged \$1,449,000 in the 2007-2009 Biennium, increasing significantly from the 2005-2007 average of \$814,000 and nearly double the 2003-2005 average of \$750,000. Per-project investments in Spring 2009 averaged \$1,853,424, and requests in Fall 09 are averaging \$2,068,537.

Average cost per unit for multifamily projects has also been increasing. The Housing Trust Fund investment per unit averaged \$29,260 for the 2005-2007 Biennium and \$45,431 for the 2007-2009 Biennium. Year-to-date in the current biennium is running at \$74,553. This is due more to the decline in leverage funds than an overall increase in development costs. As a result of reduced tax credit investments and local capital, the trend has been for the Housing Trust Fund to invest more deeply in projects.

Department of Commerce

Innovation is in our nature.

Current market conditions, including tightening of mortgage products and credit scores, are also impacting the amount of homeownership opportunities created. Interest rates continue to be low and foreclosures provide some opportunity for additional homebuyers. Incentives from the \$8,000 Federal homeownership credit, additional USDA rural funding, and the availability of National Stabilization Funds are additional factors influencing the creation of additional homebuyers in the current market.

At the 3rd annual meeting of all homeownership providers, stakeholders were concerned about the lack of funding available under the approaching Winter 2010 application round. Approximately \$2,500,000 HTF funds will be available statewide for homeownership for the 2009-2011 Biennium.

Under the 2008 funding round, investment per unit averaged \$37,054/per household, with an average total investment per applicant of \$493,281.

Whereas, historically, the Housing Trust Fund had only measured total units funded, beginning in FY08 the performance measure was revised to units "placed in service," meaning units completed and 90% occupied. In addition, units preserved are tracked separately from units created. Since we began tracking units placed in service, we have placed 130 projects into service totaling 4,038 units. Of these units, 506 units are targeted for homeless households. This addresses 4% towards the need of 13,086 units of housing for homeless households.

Housing Trust Fund-Asset Management and Compliance

Creating and preserving safe, decent and affordable housing

Purpose

To achieve project affordability and sustainability for the entire period of the Housing Trust Fund (HTF) agreement even as local market conditions change, and to build organizational capacity of nonprofit owners so that they can be strong, long-term partners with the Housing Division.

Results and Achievements

- Developed policies and procedures for several categories of restructure requests, including sale of property, transfer of ownership, loan restructuring, contractor portfolio restructuring and request for additional funds
- Reviewed 894 annual reports and made initial project assessments within three months
- Assessed annual reports for three years, provided baseline trend analysis and put initial follow-up procedures in place
- Provided more technical assistance services to non-profits through increased resources to providers
- Resolved four foreclosures through a disposition process providing local ownership and management
- Through project site visits staff met 100 percent of regulatory compliance requirements for Low-Income Housing Tax Credit and HOME program projects. Site visits were mutually coordinated and results shared with the Washington State Housing Finance Commission and other public funders.

This program is a portion of Activity A159 HD Affordable Housing Development with a primary statewide result area to improve the economic vitality of businesses and individuals.

Asset Management Services

- Annual reporting and training coordinated with other public funders
- One-on-one assistance in response to problems noted during the review of an annual report
- Technical assistance and analysis of restructuring requests
- Direct technical assistance provided through consultants to address asset and property management issues with contractors
- Facilitated transfer of properties
- Trend and data analysis of project's performance

Fast Facts

- Asset managers currently oversee about 1,000 multi-family and home ownership projects.
- Annual report review analysis resulted in technical assistance designed to increase portfolio performance.

Housing Division Performance Measurement

Housing Trust Fund Asset Management and Compliance

Measure/ Output	2003	2004	2005	2006	2007	FY2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Percentage of projects in the Housing Trust Fund portfolio in workout* status	4.5 percent	4.7 percent	5.5 percent	5 percent	6	6	5	6
Percentage of annual reports missing or substantially incomplete	No data collected	11 percent	7 percent	5 percent	3	See reporting cycle	2	2
Percentage of projects in the portfolio that have been monitored and received a site inspection.	25 percent	20.8 percent	24.8 percent	23 percent	27.3 percent	21.3 percent		

Contract Cycle:

Annual reports are due June 30th of every year and report on the prior calendar year. Annual report statistics for 2008 reflect the reporting period of January 1, 2007 through December 31, 2007.

Narrative:

Contracts require organizations to provide affordable housing for an average of 40 years. Placed in service is defined once a project has completed their development stage and has 90% occupancy.

Total projects placed in service requiring an annual report went from 599 in 2005 to 680 in 2006, to 750 in 2008, for multifamily projects.

Analysis and systems improvements continue to be made. 2005 analysis was done manually and then summarized. 2006 analysis was done by entering key elements into a database and then sorted electronically to determine follow-up. Reports were submitted electronically in 2007, with full information captured in a database. Design work on a web-based system in collaboration with other state and local public funders has occurred in 2008, with an implementation date for 2009.

**A workout is defined as the process of re-structuring or changing terms and conditions of a Housing Trust Fund contract.*

Department of Commerce

Innovation is in our nature.

A list of the projects to receive site visits in a calendar year is generated and reviewed prior to each calendar year. The projects are grouped and assigned a site visit based on the number of units in the project, Asset Management's analysis of project and organizational report submittals, the geographical location, and previous monitoring reports, and project performance. As asset management activities increase, additional projects may be added to the schedule based on desk monitoring criteria, including but not limited to non-compliance with annual reporting deadlines, request for contract amendments, requested operating subsidies, capitalization of project specific improvements, or award restructuring. Commerce coordinates with other public funders that have invested in the same project to share monitoring observations and findings and corrective action plans.

Housing Trust Fund Operating and Maintenance Fund

Support sustainable housing facilities for extremely low-income residents

Purpose

The purpose of the funds is to support operating and maintenance costs of housing projects, or units within housing projects, that are affordable to extremely low-income persons with incomes at or below 30 percent of the area median income and which require a supplement to rent revenue to cover ongoing operating expenses. The Operating and Maintenance (O&M) Fund Program subsidizes housing projects so that affordable housing is made available to a broader range of extremely low-income households than would be possible without such subsidy.

Results and Achievements

- Preserved 1,949 units to date in the Housing Trust Fund portfolio as safe, decent and affordable units
- Through the rent Buy-Down Program, 626 units have been bought-down from a higher rent level, increasing the availability of units to extremely low-income households
- Supported housing projects in nearly every county across the state, helping to stabilize 4.5 percent of the Housing Trust Fund units available to low-income households

This program is a portion of Activity A159 HD Affordable Housing Development with a primary statewide result area to improve the economic vitality of businesses and individuals.

Services

Funds are provided to assist Housing Trust Fund projects to cover operating expenses, including the cost of:

- Property management;
- Maintenance;
- Janitorial;
- Security;
- Repairs;
- Utilities;
- Administrative expenses;
- Insurance;
- Advertising;
- Capital needs assessment;
- Operating reserves; and
- Replacement reserves.

Fast Facts

- Revenue is generated through a \$10 surcharge or a document recording fee.
- Presently provides operating subsidies to 139 projects across the state:
 - 26 shelters
 - 27 transitional projects
 - 2 farm worker project
 - 3 mobile home parks
 - 81 multi-family projects
- Contracted approximately \$4,445,994 in subsidy for calendar year 2009.

Statutory Authority

RCW 36.22.178
County auditors retain five percent of the revenue collected from a document recording fee. Of the remaining amount, 60 percent is used in the county for low-income housing activities and 40 percent is sent to the state treasurer for the O&M program.

Housing Division Performance Measurement

Housing Trust Fund Operating and Maintenance Fund (O & M)

Measure/ Output	2001-2003	2003-2005	2005- 2007	FY 2008 (actual)	FY 2009 (actual)	FY 2010 (target)
Number of units serving extremely low income households supported with operating subsidy	107	221	1485	1923	1850	1850

Contracting Cycle:

Obligation of funds occurs twice yearly during the Housing Trust Fund funding rounds and, when needed, through workouts completed by HTF Asset Management.

Contracts may represent one-time funding in a 12-month period or have a one-year length of commitment, renewable for up to 5 or 20 years.

Annual contracts for January 1 – December 31

Narrative: 2009

The O&M revenue stream is based on a county-wide document recording fee. It is expected that this revenue stream will ebb and flow with the economic environment as it has been doing over the past two years. There is tension in managing the current resources caused by the continuing need to make new awards to projects through the HTF funding rounds, requests to increase dollars already granted when projects experience operating budget shortfalls, and maintaining a strategic reserve to ensure the necessary resources are available to meet the ongoing years of commitment. In an effort to mitigate some of this tension, stakeholder input was solicited and their recommendations have informed program staff to take the following steps starting in 2010.

Changes to New Award Commitments

- Cap the yearly available dollar amount for new funding at \$150,000
- Cap new awards per project at \$50,000
- Cap one-time awards through the Asset Management workout process to a total available funding of \$100,000 yearly
- No new O&M funding award commitments will be made through the HTF funding rounds or Asset Management workout process between 9/1/2009 and 6/30/2010

Changes to Renewal Grants

- Make no grant renewal amount increases to 2010-2011 grant agreements regardless of operating budget shortfalls
- Reduce all Buy-Down grant amounts starting with the 2010 renewals by 20%

Department of Commerce

Innovation is in our nature.

- Starting with the 2010 renewal process all O&M grants will be converted to the State's fiscal calendar. This means that there will be two grant agreements made with grantees during FY09-11 with the first grant cycle being 1/1/2010-6/30/2010 and the second cycle being 7/1/2010-6/30/2011. The renewal documents that are due to the O&M program on 9/30/2009 will be used to draft both of these grant agreements. Grantees will receive their first grant agreement in December of 2009 and it will take effect 1/1/2010. The second grant agreement will be emailed to grantees in May 2010 and take effect 7/1/2010.
- The new grant agreements, starting in 2010, will include a contract commitment expiration date. Please note the date that your O&M commitment is scheduled to expire. All 5-year Budget Gap awards will expire on their commitment expiration date. Projects funded with this type of O&M grant will not be extended or have their grant types converted to another grant type. The Buy-Down awards, if revenue permits, will be extended past the original five-year commitment period on a yearly basis for an estimated additional two years.

Program staff already follows OFM guidelines in establishing a strategic reserve equal to approximately 3 months of expenditures, which at this time is at the \$1.13 million dollar level.

Department of Commerce

Innovation is in our nature.

Program Financial Information

Housing Division

Activity: A159

Program Title: MacArthur Foundation Grant

Program Index: 42300

Total Expenditure:	300,000	300,000	520,000

Analysis/Comments:

This investment is aimed at ensuring the preservation of affordable housing for an estimated 3,200 Washington families who are at-risk of being priced out of their homes because of expiring federal subsidies and rent restrictions. The grant will provide direct financial support to preservation activities by nonprofit organizations and housing authorities spread across urban and rural jurisdictions.
